LABOUR
LOK SABHA

UNSTARRED QUESTION NO:3745
ANSWERED ON:13.12.2000
VACANT POSTS IN DGFASLI
RAMJI MANJHI

Will the Minister of LABOUR be pleased to state:

(a) whether it is a fact that number of posts are lying vacant in Director General Factory Advice Service and Labour Institute (DGFASLI);

(b) if so, the reasons therefor and the time by which these posts are likely to be filled up;

(c) whether any survey has been conducted by DGFASLI regarding working conditions, health status of workers andother matters relating to industrial safety during the last three years; and

(d) if so, the outcome thereof?

Answer

MINISTER OF LABOUR (DR. SATYANARAYAN JATIYA)

(a) & (b): Posts in Government Departments, including the Directorate General Factory Advice Service& Labour Institutes (DGFASLI),fall vacant because of various reasons like retirement, promotion, transfer on deputation, death, resignation etc. Some posts are vacant in DGFASLI due to some ofthe these reasons. Filling up of the vacant posts is a continuous and time consuming process because such recruitment is done through the Staff Selection Commission and the Union Public Service Commission. Necessary action for recruitment to fill the vacant posts has already been initiated.

(c) & (d): During the last three years, DGFASLIcommenced the work relating to six surveys/safety audits/studies on various aspects of safety, health and work. While the work relating to safety audit in 8 ports and study on assessment of capabilities and management of occupational safety and health in Kerala has been completed, the remaining four studies/surveys are under progress.
As studies/surveys can be completed only with the active cooperation of the industries, no definite time frame can be indicated for completion of these remaining four studies/surveys. The safety audit reports containing specific recommendations relating to operation of some procedural practices, handling of storage and transportation of hazardous chemicals, necessity of maintaining all safety related equipments etc. have been sent to the concerned port authorities for implementation. The study relating to assessment of capabilities and management of occupational safety and health in Kerala revealed that many of the factories do not have proper work procedure and safe system of work resulting in a number of accidents. The State Government of Kerala has already been requested by DGFASLI to take further action on the recommendations contained in the study report.
